

‘HKPolyU CIB Student Chapter Team – The Champion of the 6th Innovation Competition in Construction Engineering and Management (ICCEM)’

The Team Members are (from left to right): LEE Pan, Cindy CHEN, Julia CHEN, HONG Jing-ke (Team Leader), and JIANG Chen.

Congratulations to HKPolyU CIB Student Chapter on winning the first prize of the 6th Innovation Competition in Construction and Management in Beijing in early July 2013. The competition is organized by the Tsinghua University and sponsored by the Gammon Construction Company Limited.

There were in total 32 teams from Mainland China and Hong Kong to compete in this event. Amongst the 12 teams being shortlisted in the first round, our PolyU Team ranked second, and they eventually got the championship at final round of this competition.

Title of the Team's submission is called: "A Carbon Neutral SOFC (Solid Oxide Fuel Cell) – Based Multi-generation System for Building Application".
